IS A MODUS VIVENDI

Accompanied by an hospitality that comes from the heart

Beyond the wellness center, the regenerating power of wellness, according to Batani Select Hotels, is amplified in the territory. Where?

- in the detox area of Acquapartita lake, in the Appenines, where you can breathe pure air in an uncontaminated environment;

- in the secular pine forests on the coasts;
- on the coast, between the beaches and the sea, with his precious iodine reserve

We are in the Wellness Valley, in Romagna, where wellness and health are an achievement made of correct life styles and small daily gesture.

Wellness passes also through the palate, if the products arrive every day from Batani Farm

A unique combination of knowledge, flavors and energy. In the Batani Select Hotels food concept the refinement of the gastronomy is combined with the genuineness of the products grown according to nature on the family farm. Our chefs use them every day, after the daily delivery in all the restaurants a few

hours after the harvest. The result is a first-class cuisine that expresses simplicity, lightness and link with the territory, where every dish gives back the vitality of the nutritive principles of the fresh and natural product.
