Reception and Common Area

Access mode

- Access to the facility is regulated in accordance with current regional legislation. It is provided the opportunity to detect the temperature of guests at the entrance or to request self-certification to ensure that subjects not in perfect health do not have access to the property.
- Procedures for detecting body temperature at each shift start for service staff
- Constant use of the mask for service staff, also called upon to sanitize the hands with the appropriate gel based on alcohol after every check-in procedure / check-out
- Vertical signage and ground stickers to help guests maintain distance
- Separate path for guests who need access to check-in or check-out procedures
- Bulkhead in plexiglass on the reception desk
- Alternative web check-in procedures and tablet for arrival registration to facilitate contactless

Reception and Common Area

Sanitation Protocol

For the cleaning and sanitization of reception and common areas, these measures are implemented:

- A sanitizing carpet has been prepared at the entrance of the Hotel
